DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, 7-14, 17-21, 23-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Martensson (5,151,946).

Regarding claims 1-5, 7-14, and 17-19, Martensson discloses a variable configuration portable telephone comprising: a body (see abstract, fig.7-8, element 1 and its description); a movable cover arranged on the mobile phone for movement with respect to the body (see abstract, fig.7-8, element 7 and its description); and a piezoelectric actuator connected to the body and drivingly engaging the cover for moving the cover with respect to the body (see abstract, fig.7-8, elements 22, 23 and its description).

Regarding claims 20-21, and 23-27, Martensson discloses a variable configuration portable telephone comprising: a movable first member (see abstract, fig.7-8, element 7 and its description); a second member on which the movable first member is slidingly arranged (see abstract, fig.7-8, element 1 and its description); an elongated connecting member fixed on the first member (see abstract, fig.7-8, element 23 and its description); a piezoelectric actuator connected to the second member, an output of the piezoelectric actuator drivingly engaging the elongated connecting

member for directly driving the first member to slide the first member with respect to the second member (see abstract, fig.7-8, element 22, and its description).

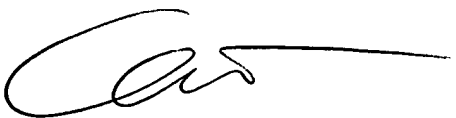

Allowable Subject Matter

3. Claims 6, 15, and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
